

minent and President MacMahon the force of the less of the monarchist party is it capable of being terminated by a majority vote at any time? Upon the answer to this depends largely the decision of what the future government of the nation is to be. The monarchist instincts of France are still alive. The desire for a republic, to live with a free press and a just constitution, is not to be denied, but perfect fever, but, like all other fevers, it is self-limiting, and the old longing for a strong government, surrounded with the splendor of a refined civilization, for noiseless order, a sort of mechanical symmetry and perfection in the workings of a law, and invariably comes back after a while. For the republic of the Bourbons there is little or no chance. The Comte de Chambord having blocked the way to his own accession to the throne by his own imperious folly; the only possible claim remaining in which monarchical instincts are being consequently, that of a Bonapartist which cumulated the reasons for widening and enlarging from year to year. The national instinct demanding an Empire for the sake of peace, order and much-needed quiet is the principal source of danger to the

bill in the Assembly. The compulsory education law, which is the subject of the bill, is a notable circumstance. The act requires that all children between the ages of eight and fifteen years shall be required to attend school or receive private instruction in the common English branches at least fourteen weeks in each year.

—Those who earn their bread by the sweat of their brow would perhaps be pleased to learn that some one has discovered that during a day's work there transudes through the skin of the human body 7,000,000 sudoriparous glandules of the human body about a pint and a half of perspiration which has to pass through an aggregate of 2,000,000,000 of these glandules before appearing upon the surface.

—The New York Cremation Society has tried its "prettiest hand already. One of its members was polite enough to die within a day or two after he joined the fire-worshippers. His body was put upright in a fire-proof receptacle, through which intensely heated air was blown, and the result was that the body was reduced to ashes in a few minutes and now has the ashes of his son in a small little urn on the parlor mantle piece.—*New Louis Democrat.*

should the evidence not be sufficient, however, to convict them of the murder. Rumor has even said that Carmody has made a confession implicating Finnin as Panormo's murderer.

**TAMMANY'S ELECTION**

The Tammany Society met to-night to elect officers for the ensuing year. There was strong opposition ticket. Ex Sheriff Breun was the leader of the opposition party. Even though passing the time there were no speeches. The regular ticket was elected 185 against 110 votes. The following officials were elected: For Sachers—John Kelly, Samuel J. Tilden, Thomas Danlap, Wm. H. Wicham, Edward L. Donnelly, John Fox, Jo. W. Chander, Abram S. Hewitt, Wm. C. Coates, George Webb, Sullivan Davis, William B. Andrus and Daniel F. Freeman; Treasurer, Arthur Leary; Sagamore, William Small; Secretary, Joel O. Stevens; Winskill act, John D. Newman.

The bill appropriating \$3,000,000 for the Centennial, after a short, sharp discussion was passed by special order on the 5th of May 1844 against 66.

Mr. WITTSHERE of Arkansas offered a resolution calling on the President for copies of the correspondence between the Secretary of the Interior and the Secretary of the Treasury, touching the troubles in Arkansas. Adopted.

Mr. YOUNG of Georgia moved to suspend the rules and adopt the resolution relating to the necessity for a cheap system of water transportation and directing the Committee on Railroads and Canals to report a bill for the opening and improvement of the great natural water highways of the country and their correction by artificial channels, and many other special provisions.

Mr. MCCRARY of Iowa, chairman of the committee, remarked that such a scheme would involve the outlay of \$500,000,000. The railroad men of the country, 150, says 73, would not two-thirds in the affirmative.

The House then, at half-past three, went into Committee of the Whole, Woodford called the roll, and the yeas and nays were 131 yeas and 100 nays, on the passage of the executive and judicial appropriation bill.

After disposing of five pages of the bill, the committee rose and the House at 5:10 p. m. adjourned.

—A monument to Bishop Calvin Kingsley, who died at Beyrout, Syria, in 1870, while on his way to attend the world for the Methodist church, has been completed and will soon be shipped to the place of his death for erection over his grave. It is Quincy granite and is twenty-two feet in height. It was made by order of the general conference, which contributed \$2,500 for that purpose.

—One night last week the signal station on the top of Mount Washington reported a north wind blowing at the rate of thirty miles an hour, as shown by the anemometer, and a temperature of 18 degrees below zero. This is probably the highest force ever attained by the wind in New England. A gale 60 or 70 miles an hour will often blow down trees. Even the hurricanes of the tropics a force 100, even 150 miles an hour, will not do much harm. A man being could stand before such a gale.

The people in the chained-down but contrive to examine the anemometer without emerging else they would be swept off bodily and hurled down Tuckerman's Ravine. The roar of such a mountain gale is terrible beyond words.

To-Week—McEvoy's Hibernian at Washington Hall.

CITY NOTES.

—A certain down town flat says that she "keeps her powder dry but she don't go off."  
—The Folio, a Boston musical journal, gives a notice of the Presbyterian church.

—Bermuda luxuries appear in our markets—potatoes, tomatoes, etc. The prices are nearly half the "usual" price.

—Don't take off your flannel yet; the rheumatism goeth about seeking whom it may find with its flannel off.

—The rain was very welcome hereabouts, as wells and cisterns were low and in some cases the water was exhausted from them.

—McEvoy's Hibernian was in Savannah, Georgia, last week on Tuesday evening and it shows in this city to-night.

—On Monday 93 canal boats laden with 11,918 tons of coal reached tide water through the Delaware & Hudson Canal.

—There were a great number of sail craft lading coal at the island dock on Monday than in a long while before.

—The first thunder shower of the season was a success. The streets are cleaner than ever Jonathan can make them.

—Mart's of the Ulster Market sold the first shad caught in the Hudson at this point to His Honor Mayor Lindsay.

—It was a blue Monday for a great number of persons—we saw more drunken people on the streets on Monday than we have seen before in a long while.

—Two or three bad little boys lurking behind a shop, with a hand full of mud balls apiece, will make even the battle-scarred veteran wish himself four blocks further off.

—The Pullman palace car brought here for the excursion to New York to-day over the Wallkill Valley Railway is called the Ocean Queen and is a very beautiful vehicle.

—The Cionan house on the corner of Union avenue and Union streets, and which was partly destroyed by fire some weeks since, fell to the ground about six o'clock Monday morning.

A movement is in progress for the paving of Garden street. Nothing more improving could be done with the street. It is almost a necessity. A sewer should also be laid there, and it is better to combine the two.

—Two liquor dealers on Union avenue Saturday night sold ten gallons of liquor each, in pints and quarts. This fluid was bought by men to drink at their houses on Sunday, fearing the temperance movement would close up the dram shops on that day.

—St. Mary's Temperance Band played at McEvoy's Hibernian exhibition last evening. They serenaded the priests before going to the hall and marched through the streets in full uniform, playing as they went, both going and returning. They are improving at a creditable rate.

—Alderman Cordis' new mansion is fast approaching completion. It is the largest private residence in the city or hereabouts and is arranged most commodiously and splendidly fitted up. There is no grainer or more extensive view along the river than can be had from his house, and the level and elevated plateau on which it stands is the finest building site for miles around. When the grounds are completed about the Alderman's house he will have a residence and grounds not surpassed in beauty and comfort by anything along the river.

**The Pigeons.**  
The pigeons have mizzled. They didn't appreciate the last snow storm, and left in disgust.

**The Lightning.**  
The first thunder storm of the season was had last night, and the lightning struck very close to the upper part of the city if not in it.

**Canal Boat Shippers Happy.**  
Owners of canal boats are not to be pestered any more by custom house officials demanding fees and license. The Senate has passed the bill amending the act providing for enrolling and licensing vessels. It now exempts canal boats from the provisions of the law.

**Shad.**  
Henry Cole captured six shad in one drift of a net on Monday in the Hudson off Kingston Point. Shad had been caught here on Saturday, but only one or two at a drift, so to Henry belongs the credit of the first paying haul of the season hereabouts. Henry, do you want that we wagged on Billy Dempsey?

**A Scrimmage.**  
Jacob Holmes, a colored man, struck a man by the name of John Delaney on Union avenue Saturday afternoon, and knocked him down. A son of Delaney then came to the rescue and succeeded in doubling up the colored chap as one would close the blade of a jack knife.

**Discharged from Custody.**  
The woman McClelland, who was sent to the Ulster county jail some time last winter charged with having strangled her babe while at Poughkeepsie, was discharged last Saturday. The Grand Jury having failed to find an indictment against her. She was put upon the train on the N. Y. & S. R. R. and sent home to Shandaken.

**For Boatmen.**  
Any letter to a gentleman in this city from the Superintendent of the Champlain Canal says that doubts that highway of commerce will be open for navigation on April 25th, and the boatsmen are informed that orders to load coal cargoes can be obtained from Captain James Heaton, for Burlington, Plattsburgh, Rouse's Point, Montreal and intermediate ports.

CIRCUIT COURT AND COURT OF Oyer and Terminer.

**Judge Douglas Boardman Presiding.**  
The first case called and tried Monday afternoon was No. 106, *Rebecca A. Townsend vs. William H. Smith and J. L. Smith*. The attorneys are Schoonmaker, Jr., for the plaintiff, and Parker and Keyser, for the defendant. This was an action brought to recover for the balance of rent due on a lease made by the parties in the spring of 1869, in which plaintiff leased her store on Wall street to William H. Smith at the rate of \$800 per year, J. L. Smith being security for the payment of such rent. On this lease there is a balance due of some \$200 with interest. At the close of the evidence the Judge ordered a verdict for plaintiff for \$242.75.

The Judge stated that all cases below No. 200 would not be tried this term.

Two prisoners were brought into court one, Gideon Alexander Higgins, a boy aged 14 years, indicted for having stolen about \$40 from the store of Solomon Burger in the lower part of the city. The prisoner plead guilty and was sent to the House of Refuge on Randall's Island during the pleasure of the manager of the same. The other, Michael Lawless, a somewhat notorious gentleman who formerly resided in Saugerties, but who of late has been in New York city, was brought into court, having been indicted for burglary in the first degree for having with another man entered the house of one Dorothy Decker, between this city and Saugerties, one night last September, and beating the woman badly because she would not find any valuables or money to carry away. His case was not disposed of, and will not be taken up for trial at this session of the court. The prisoner will probably give bail.

No. 42, *Abram J. Fiero vs. Jacob Fox*, was argued on by the plaintiff's attorney, and after a jury had been called it was agreed that the dismissal of the plaintiff's complaint should be taken, with costs to defendant. The attorneys are J. Smith for the plaintiff and A. J. Mellon for the defendant.

No. 112, *Edward Hattenbeck vs. Edward Taylor*, was then tried. The attorneys are G. R. Adams for plaintiff, and A. J. Mellon for the defendant. This is one of those peculiar cases in which the plaintiff must either have a very strong imagination, or else the defendant must have an exceedingly bad memory. Someone must swear falsely. The plaintiff testified that the defendant, who is a resident of Port Ewen, owed him some \$225 cash and money borrowed of said plaintiff. The defendant went upon the witness stand and swore positively that he had never borrowed a cent of plaintiff; had never had any money transaction whatever with him; had never received any money from him, or ever paid him any. These two witnesses were the only witnesses whose testimony had a bearing on the case.

The court adjourned until Tuesday morning at 9 o'clock.

**The Hudson Dock.**  
Mr. Thomas Sturgeon, senior, thus explains the relating of the contract for building the dock for the water works at Hudson: "I deny the assertion that I failed to supply the timber for the Hudson city water works dock. Not a foot of timber was required to be furnished by the Water Commissioners. The contract was awarded to me and two others, master masons. I went there provided to do my portion of the work. The masons for reasons would not sign the contract. I was not allowed time to find other parties to do the mason work, for which cause I did not sign the contract, though urged by the Board to do so."

**Grand Oratorio.**  
The Poughkeepsieans are to have a grand musical treat at Collingwood Opera House on Monday evening, the 27th. The oratorio of Elijah will be given by the Mendelssohn Society of that city, assisted by Theodore Thomas' full orchestra. Miss Julia Alexander will sustain the principal soprano part, while Mr. M. H. Whitney takes the part of Elijah. This is not a financial speculation and will be a social treat to be remembered for a lifetime. Our music-lovers who wish to attend can reach the city in time for the performance by the down train with which the six o'clock ferry-boat connects, or by the steamer Cornell. Admission \$1.00; reserved seats \$1.50.

**A Quick Trip.**  
There are no smarter sailors men navigating the Hudson River than the skippers of the vessels that carry blue stone from Wilbur, as this account of the last trip of the schooner Columbia, Captain Dennis Donovan, will go to prove. The Columbia (long may she float) left her loading berth at the yard of D. E. Donovan in Wilbur on Friday, April 17th, at 2 p. m. and arrived at the pier foot of Fifty-seventh street, North River, in New York, on Saturday, the 18th, at 4 a. m. Commenced discharging her cargo at 7 a. m. and at four o'clock had put out 220 tons of blue stone. Immediately got under way and arrived at the mouth of Rondout Creek on Sunday last at 1 p. m. The wind was ahead up the creek and the schooner worked to Wilbur in about an hour, arriving there about two o'clock, having made the trip to New York in less than forty-eight hours, and in that time discharged 220 tons of stone. Now if any craft beats that this season we'll bet a dead seagull to a healthy second mate's tip there won't be a barnacle found on her bottom.

**Dominie Conitt Once More.**  
Our readers will remember that this ex-parson was removed by force from the New Prospect parsonage by Sheriff Saxton of Ulster. He was taken in and cared for in his extremity, by his admirer and friend, C. A. J. Harbinger, upon whom he is still quarreled. This ex-parson has recovered from his real or pretended injury received by an alleged fall on the ice, and is now out for the benefit of his health. "Case" goes about and begs funds to aid this ex-parson, who is in very pecuniary circumstances. There is no need for us to warn the people against bestowing alms upon this much-lauded preacher, for they know well enough themselves where a larger share of the money would be liable to go. The Constabulary last Friday had a run at Shawangunk, before a referee, in regard to the rent of the parsonage. The dominie's friends swore it was worth about \$60 a year. The Constabulary asked \$150, which is about three per cent. of its valuation. The referee has sixty days to render a decision.—*Montgomery Standard.*

**A True Story.**  
Some years ago a lawyer, then a resident of Port Jervis, was trying a case at Greenville before a Justice's court with a celebrated lawyer of Goshen. The case was somewhat tedious and the court took a recess at the close of the evidence in order to refresh the inner man. During the recess both the lawyers, as well as the greater part of the jury, had refreshed themselves so often at the bar that they were all in a state of inebriety, so much so that the justice wished to have further hearing of the case adjourned until the next morning. To this both counsel objected and also the jurymen, so the case was brought up for summing up. The Port Jervis lawyer commenced his address to the jury and managed to keep his feet by holding firmly on a chair back. After talking some time, he noticed that one of the jurymen had his head near the floor and was manifestly not much interested in the case. Our Port Jervis lawyer at once addressed him and accused him of being sick and puking on the floor, when the invalid juror replied sharply, "Of course I am sick, Sam summing up is enough to make any man sick." It is needless to say that the laugh was on the lawyer and he closed his remarks more briefly than eloquently, and lost his case. He never liked a Greenville jury after that.—*Port Jervis Gazette.*

Rhinbeck & Connecticut R. R.

The Rhinbeck Gazette says the work on the road is progressing finely. The iron is laid beyond Gallatinville, Columbia county, and the greater portion of the road is in readiness for the rails. Two more locomotives are expected soon and quite a number of new cars have already arrived, and the work is being pushed with great energy. It has not heard it definitely stated when the road will be completed, but thinks that during the coming summer trains will be regularly run for the accommodation of passengers along the line. The road is already doing quite a freight business, the farmers appreciating the fact that they can ship their produce by rail much cheaper than they could themselves transport it. The Gazette understands that an effort is being made to have the railroad run through that village, and that the management will comply with this request if twenty thousand dollars' worth of the stock is taken. Such an arrangement would undoubtedly tend to increase the business of the village and would be highly beneficial, but it doubts if the offer is taken. The Gazette urges its capitalists to see that the arrangement is effected.

**A Father Said.**  
A few days ago, two bankers who reside in the upper part of the city were standing on the walk conversing with each other, when a stylish lady passed by. Said one to the other, "Who is that young woman? She cuts quite a spread, now, don't she?" "What?" said the other, "don't you know her? Why, that's your daughter." The banker took another long look, and then sighed as he answered, "So it is."

**New Vessels.**  
A new 500-ton barge for the Del. & Hud. Canal Company, now on the stocks at J. & J. McCausland's shipyard in this city, will be launched some day during the present week. The two steam canal boats now being constructed at the same yard for the Baxter Company are being planned and will soon be ready for launching. The boats are very sharp, with an overhanging stern, to protect the screws, and will carry large cargoes of grain.

**Towns.**  
The following were yesterday's towns: Steamer Oswego—Schooner Emerald, ice barge Sampson, W. A. Ballentine, 30 D. & H. C. Co.'s boats to New York.

Steamer G. A. Hoyt—Outrigger—Boat S. Cahill, Bull's Eye, T. W. Stevens, Merchant, Chas. Whitehead, Hoffman, Adie, Gertrude to New York.

Steamer Marshall—Del. & Hud. Co.'s boats.

**The Hibernian.**  
Notwithstanding the inclemency of the weather, Washington Hall was crowded last night to witness the Hibernian. Soon after 8 o'clock the sale of tickets was suspended on account of the crowded state of the hall. The scenery was grand, and no doubt appreciated, if we may judge by the applause which each city, town, castle or ruined abbey brought forth. Of Barry and Noxwe shall say little; they could not describe how accurately both characters represented Irish wit and humor. Those who witnessed the Hibernian will remember it. It is a rare treat to see again the land of one's childhood.

"Thy hills and thy valleys no longer I see; But as warmly as ever my heart beats for thee" was not inappropriate when McEvoy showed them quite plainly.

The Hibernian exhibited at Washington Hall for the last time this evening.

**Don't Like the Sparrows.**  
The Troy Times evidently is not an admirer of the English sparrows, for this is the manner in which it speaks of those little colonists: "The sparrows are not at all accommodating. They will not let the robins build nests in the parks where the foreigners congregate. In one instance a pair of robins had been driven from a tree on Second street, in the branches of which they have had nests for the last four years."

The Association has about forty acres of land, but only ten acres are laid out and improved. They intend to make considerable improvements this summer in the way of building a vault and setting out evergreens and trees around the grounds. There are five monuments erected, two of them large ones, and the foundations erected for four or five more.

—The little girl, Hays, of Troy, who forced a doll's arm into her ear, is, wonderful to relate, suffering no pain, a running from the ear being the only evidence that she is injured. On Saturday morning a surgical operation was performed, which, had the child remained quiet, would have been successful. She became restless, however, just as the surgeon had caught hold of the piece and was about to draw it out, and thus destroyed the chance of its removal. It is now feared that brain fever will ensue, although the child is able to be about and does not appear to be at all inconvenienced by the unfortunate accident.

# WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of WALKER'S BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the human race has a medicine compounded possessing the remarkable qualities of WALKER'S BITTERS in healing the sick of every disease man is heir to. They are a gentle purgative as well as a tonic, relieving Congestion & Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-irritant, Stomachic, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Potomac, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Counters, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Sore Throat, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Painting and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itch, Scabies, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scourf, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectively destroyed and removed. No system of medicine, no vermifuge, or anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, the Bitters of manhood, or the turn of life, these Bitters display so decided an influence that improvement is soon perceived.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
